# Correction: Imaging in a rare case of cerebral phaeohyphomycosis caused by *Cladophialophora bantiana* in a renal transplant patient: a case report and the literature review

Pushpak N. Patil<sup>1,3\*</sup> , Rajendra Chavan<sup>2</sup> and Shivani S. Borse<sup>1</sup>

**Correction to:** Patil et al. *Egypt J Radiol Nucl Med* 55: 59 (2024).

<https://doi.org/10.1186/s43055-024-01229-8>

Following the publication of the original article, a typesetting error caused an incorrect reference in the abstract. The first sentence of the Abstract reads: Cerebral phaeohyphomycosis is a rare and potentially life-threatening fungal infection caused by dematiaceous fungi (Nosanchuk and Casadevall in *Antimicrob Agents Chemother* 50(11):3519–3528, 2006).

The correct reference is as follows:

Cerebral phaeohyphomycosis is a rare and potentially life-threatening fungal infection caused by dematiaceous

fungi (Levin TP, Baty DE, Fekete T, Truant AL, Suh B. *Cladophialophora bantiana* brain abscess in a solid-organ transplant recipient: Case report and review of the literature. *J Clin Microbiol.* 2004;42(9):4374–4378. <https://doi.org/10.1128/jcm.42.9.4374-4378.2004>).

The original article has been corrected.

Published online: 06 May 2024
